

DSA Structural Amendments under review are highlighted in GRAY

Template 17-09

2001 CBC - Chapter 17A

STRUCTURAL TESTS AND INSPECTIONS

Section - 1703A - NONDESTRUCTIVE TESTING

Subsection(s) - 1703A.1

1 **1703A.1 [For DSA/SS]** * * * Welded, fully restrained connec-
2 tions between the primary members of ordinary moment frames
3 and special moment-resisting frames shall be tested by nonde-
4 structive methods for compliance with *this code*, approved stand-
5 ards and job specifications. This testing shall be a part of the
6 special inspection requirements of Section 1701A.5. A program
7 for this testing shall be established by the person responsible for
8 structural design and as shown on plans and specifications. *See*
9 *Chapter 22A, Division XII, Section 2231A.*
